Preston Parish Council has an I.T policy, however we are non-compliant with data management requirements: WCAG 2.2AA.

We have recently acquired a gov.uk email address for the clerk. Councillors gov.uk emails addresses will follow as will an updated website – likely a brand new one. Until recently, the existing website had little information on it which the Clerk has endeavoured to improve upon, and this and will continue until a new site is ready to go live.
